*For external participants, please contact Kalterine Vrenezi (kvrenezi@worldbank.org) to RSVP

Overview: The Caribbean -- the most tourism dependent region in the world -- is typified by large-scale cruise ship and all-inclusive beach resort tourism. Please join us for the world premiere of "Caribbean 'Green' Travel: Your Choices Make a Difference", the latest video documentary by the Center for Responsible Travel (CREST). This film portrays a different type of Caribbean tourism – innovative, 'green' alternatives that protect and sustain the environment and respect and benefit local communities. The 45 minute film showcases a variety of responsible tourism businesses on four islands: Jamaica, Aruba, Grenada, and the Dominican Republic.
